

SIGHTS OF PICTON

Come visit Picton, the place the locals call “Paradise” and let Bucket List Tours NZ show you its beautiful panoramic views.

We believe that Picton is the Jewel in the Crown of Marlborough, a picturesque harbour town nestled in the heart of the Marlborough Sounds, guarded by a range of hills that open out onto vast waterways, channels and bays.

This tour is designed to give you, the visitor a glimpse of the sheer beauty of this district and hope we can entice you back for a longer stay next time.

Your tour begins at Victoria Park where you will look down on the Ferry Terminals and if you are on a cruise, your ship. Victoria Park is on the top of a finger of land called The Snout and you will travel along the top of it for more views of Queen Charlotte Sounds.

We then drive through the suburb of Waikawa to Waikawa Bay and Port Underwood Rd, passing pretty bays and fabulous homes perched on the hillsides and at the waters edge. You will stop at Karaka Point for another amazing view, this is an historic, long abandoned Maori Pa site. Ask your guide about the story of the carving of Kupe and Te Wheke Nui (giant octopus) that stands there.

You return to Picton for the last lookout over the Ferry Terminal from the West side of the harbour, this gives you views looking out the Sounds to where you have just driven and also back into the Picton Marina and town.

We sincerely hope we have wet your appetite for more and you will call again.
